

"I'm Done with Winter" BINGO

How are you doing so far this winter? Give yourself a point for each. Yell "BINGO" and post on social media if you fill a line, diagonal or horizontal. First to post among your friends WINS.

Drank hot chocolate	Home with fur kids who didn't want to go outside	Posted picture of your thermostat: car or house	Irritated when you received the governor's request to lower thermostat	Watched video of that dinosaur guy in Fraser snowblowing (VIDEO)
Wished they wouldn't cancel school again. Juggling kids, work, and winter driving. Ugh.	Driven to the brink of parenting insanity with school-aged kids whose school was cancelled due to weather	Said of warmer climate "but their summers are like our winters"	Rationalized eating comfort foods because we need extra calories when it's this cold.	Had to peel off layers indoors because you got too hot.
Tried blowing bubbles outside to see if they freeze (VIDEO)	Looked up info about global warming and its link to colder winters	FREE	Actually happy when the temperature went from negative to positive single digits	Unfriended / muted a Facebook friend who lives (or vacationed) in a warm climate
Threw hot water in the air outside (VIDEO)	Warmed freezing hands on someone	Posted a picture of snow or ice on social media	Lowered thermostat per governor's request	Bought (or used) a space heater or heating blanket
Put flannel sheets on your bed	Complained it didn't feel like winter without the snow and regretted it a week later	Stayed indoors for a full day (not even a crack of the door)	Did something "wintery" outdoors (sledding, skiing, ice fishing, ice skating)	Daydreamed about what you will do outside this summer
